

CHRISTMAS QUILT

This is not a proper pattern, but a rough guide for putting together the quilt top. Put together many months after the quilt top was made. Thus, I have no exact number for the fabric requirements.

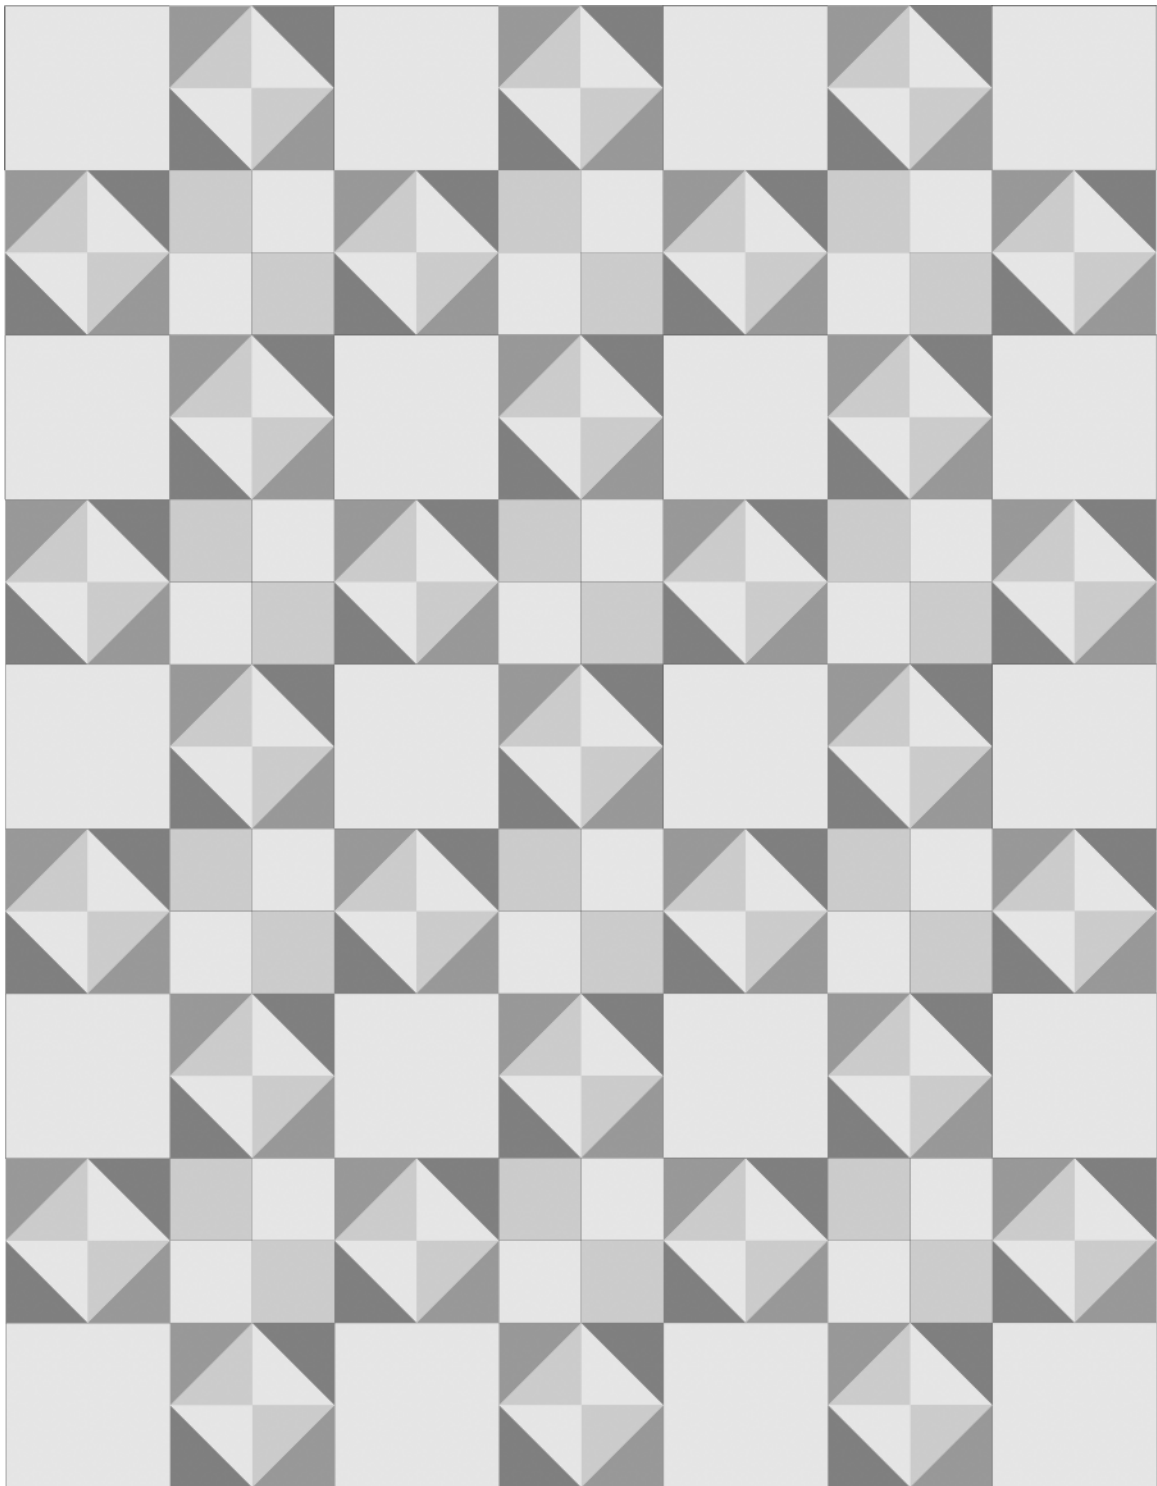

The finished quilt will measure approximately 56" x 70".

Great for showing off a few favourite prints in the large squares and using up scraps in the other blocks. The scrappier the better if you ask me. ;-)

Happy sewing!
